

Make Yourself at Home

Ross Farm has certainly come a long way from its former state as a group of disused buildings on a dairy farm. The Cabin, Barn and Dairy have been transformed into bespoke accommodation for design admirers in Meeniyan, Victoria.

Designed by Studio Moore, each building has its own distinct feel while tying into an overall aesthetic that emphasises robust materiality and the work of local craftspeople. Local materials were used wherever possible, with the aim of designing and making as much as possible on-site.

The Cabin, Barn and Dairy offer a range of sleeping options for couples, families and groups. So what are you waiting for?
